

Madras 8/5

Dear Marina

I am glad everything was great for you on your return. It is always refreshing to join the family again.

It was for all of us, who worked with you, a valuable experience. Melvaka gained a lot of confidence through her classes. Your interest in the Yoga Patha, from the point of view of children, opened another door of perception. How valid it is even for them! I was almost tempted to write a Yoga Patha reader for the children. This, I hope, you will do, both through your work with them and your Meditation.

In a Society, where there is such a wide scope for children to get lost, I always wished someone will use the Yoga Message to lead them in the best path, appropriate to West. Now I have found you as a possible guide. I wish you all the best. Those children who will

Benefit from you, are the fortunate ones.
You are fortunately well pleased
through good education, family and
interest. you can not fail.

I am glad I could teach you.

With all the best to yours
family and you.

Indesiganka
